THE WATER BOARD INSPECTOR

A Water Board Inspector pulls in at a rural property on the Murrumbidgee and stops to talk with an old stockman. He tells the stockman “I need to inspect your property to assess your water allocation.” The old stockman says, “No worries, but don’t go in that paddock over there.”

The Inspector becoming quite indignant says “Mate, I have the authority of the Federal Government with me. See this card? This card means I can go WHEREVER I WANT on any agricultural land. No questions asked or answered. Have I made myself clear?”

The old stockman nods politely and goes about his work. Later, he hears loud screams and spies the Inspector running for his life. Close behind is an enormous bull. The bull is gaining with every step. The Inspector is clearly terrified, so the old stockman throws down his tools, rushes to the fence and yells… “Your card! Show him your card!”

AUSTRALIA DAY Summer 2013

Books and Movies for every Aussie!

Here we are at Australia Day 2013… doesn’t time just fly past! The Australiana section of the website is expanding all the time and now covers an enormous range of movies and books. I’m so thrilled to hear there are so many people who love all things Australian as much as I do.

I am often asked why there aren’t more classic movies readily available for us to revisit and enjoy. Unfortunately, it gets back to that old monster… MONEY! A lot of the old films have deteriorated and need restoring and, even if the film isn’t in a terrible state, it still costs around $10,000 for an overhaul. By the time all the other various costs of distribution are added on, it means many shows just aren’t economically viable. We can only hope many classic movies don’t disappear forever.

On a brighter note, there are several great new Australian productions due for release in 2013. It’s great to see the Australian film industry is not only alive and well, but truly thriving. Here are a few to watch for this year. Nothing horsey yet but I have heard rumours so stay tuned.

TRACKS (Movie) Based on the true story of intrepid traveller and writer Robyn Davidson’s solo trek from Alice Springs through 2700km of sprawling Australian desert to the Indian Ocean, accompanied only by her loyal dog and four unpredictable camels.

MOONLITE (Movie) The adventure tale of bushranger Andrew George Scott, alias, Captain Moonlite, and his (very!) close companion, James Nesbitt.

AN ACCIDENTAL SOLDIER (TV Movie) follows the wartime story of a baker in the ANZAC service corps who makes an extraordinary decision and finds an unexpected love.

A PLACE TO CALL HOME (TV Drama Series) A romantic saga set in rural Australia in the 1950s and based in the fictional town of Inverness, home to the Bligh family estate Ash Park, with a landscape as vast and dramatic as the people who live there.

GALLIPOLI (TV Mini Series) The greatest invasion in the history of warfare was to become a diabolical failure; an eight month siege where the bravery of Anzac troops was squandered. In doing so a legend, and a nation, were born.

RUMOUR: GALLIPOLI Casting may include Sam Worthington of Avatar fame (Above).

Best Wishes to All Jody xxxx

**What is PAL/NTSC?**

PAL is the type of television transmission in Australia and Europe. NTSC is mainly used throughout the USA and parts of Asia.

**What is Region Coding?**

Most DVD discs contain a Regional Code which is supposed to prevent the disk from being played in a country outside the designated region. This means that most discs will not work unless they are used in a player with the same region code. For example, a Region 4 disk (Australia and New Zealand) will probably not play in a machine from the USA (Region 1).

There is another catch as well. Some countries may share a regional code, however they don’t share the same playback systems. For example the United Kingdom and Japan are both Region 2, but the UK uses the PAL system and Japan uses NTSC.

The good news is that many players are now ALL REGION players so you should be ok, but please check first. We can’t accept returns for purchases made where you haven’t checked compatibility first.
